### Table of contents

**Special Issue Articles**

Studying Research Collaboration Patterns via Co-authorship Analysis in the Field of TeL: The Case of Educational Technology & Society Journal  
Panagiotis Zervas, Asimenia Tsitmidelli, Demetrios G. Sampson, Nian-Shing Chen and Kinshuk

A Review of Research on Mobile Learning in Teacher Education  
Evrim Baran

Methodological Issues in Mobile Computer-Supported Collaborative Learning (mCSCL): What Methods, What to Measure and When to Measure?  
Yanjie Song

Learning Analytics and Educational Data Mining in Practice: A Systematic Literature Review of Empirical Evidence  
Zacharoula Papamitsiou and Anastasios A. Economides

Review of Speech-to-Text Recognition Technology for Enhancing Learning  
Rustam Shadiiev, Wu-Yuin Hwang, Nian-Shing Chen and Yueh-Min Huang

The Influence of Young Children’s Use of Technology on Their Learning: A Review  
Ching-Ting Hsin, Ming-Chaun Li and Chin-Chung Tsai

Learning of Abstract Concepts through Full-Body Interaction: A Systematic Review  
Laura Malinverni and Narcis Pares

Quality Indicators for Learning Analytics  
Maren Scheffel, Hendrik Drachsler, Slavi Stoyanov and Marcus Specht

Augmented Reality Trends in Education: A Systematic Review of Research and Applications  
Jorge Bacca, Silvia Baldiris, Ramon Fabregat, Sabine Graf and Kinshuk

Closing the Missing Links and Opening the Relationships among the Factors: A Literature Review on the Use of Clicker Technology Using the 3P Model  
Jae Hoon Han

Review of Augmented Paper Systems in Education: An Orchestration Perspective  
Luis P. Prieto, Yun Wen, Daniela Caballero and Pierre Dillenbourg

The Effects of Meta-cognitive Instruction on Students’ Reading Comprehension in Computerized Reading Contexts: A Quantitative Meta-Analysis  
Yi-Chin Lan, Yu-Ling Lo and Ying-Shao Hsu

**Full Length Articles**

What Drives Nurses’ Blended e-Learning Continuance Intention?  
Yung-Ming Cheng

Exploring Students’ Knowledge Construction Strategies in Computer-Supported Collaborative Learning Discussions Using Sequential Analysis  
Nurbiha A Shukor, Zaidatun Tasir, Henny Van der Meijden and Jamalludin Harun

The Effect of Using Cooperative and Individual Weblog to Enhance Writing Performance  
H. Gulhan Orhan Karsak, Seval Fer and Feza Orhan

The Role of Group Interaction in Collective Efficacy and CSCL Performance  
Shu-Ling Wang, Hsien-Yuan Hsu, Sunny, S. J. Lin and Gwo-Jen Hwang

Exploring the Moderating Role of Self-Management of Learning in Mobile English Learning  
Rui-Ting Huang
Development of the Interactive Whiteboard Acceptance Scale (IWBAS): An Initial Study
Kung-Teck Wong, Timothy Teo and Pauline Swee Choo Goh

268–277

Focused Ubiquity: A Purposeful Approach to Providing Students with Laptops
Mike Keppler, Spencer C. Weiler and Dan Maas

278–288

Enhancing Students’ NOS Views and Science Knowledge Using Facebook-based Scientific News
Hsi-Yu Huan, Huei-Ling Wu, Hsiao-Ching She and Yu-Ren Lin

289–301

Development of a Survey to Measure Self-efficacy and Attitudes toward Web-based Professional Development among Elementary School Teachers
Chia-Pin Kao, Chin-Chung Tsai and MeiLun Shih

302–315

A Problem-based Ubiquitous Learning Approach to Improving the Questioning Abilities of Elementary School Students
Pi-Hsia Hung, Gwo-Jen Hwang, Yueh-Hsun Lee, Tsung-Hsun Wu, Bahtijar Vogel, Marcelo Milrad and Emil Johansson

316–334

Identifying Computer-Supported Collaborative Learning (CSCL) Research in Selected Journals Published from 2003 to 2012: A Content Analysis of Research Topics and Issues
Lanqin Zheng, Ronghuai Huang and Junhui Yu

335–351

An Augmented Reality-based Mobile Learning System to Improve Students’ Learning Achievements and Motivations in Natural Science Inquiry Activities
Tosti H. C. Chiang, Stephen J. H. Yang and Gwo-Jen Hwang

352–365

A Multi-modal Digital Game-based Learning Environment for Hospitalized Children with Chronic Illnesses
Jui-Chih Chin and Mengping Tsuei

366–378

The Nature of Online Charter Schools: Evolution and Emerging Concerns
Lisa Hasler Waters, Michael K. Barbour and Michael P. Menchaca

379–389

Collaborative Inquiry with a Web-Based Science Learning Environment: When Teachers Enact it Differently
Daner Sun, Chee-Kit Looi and Wenting Xie

390–403

Exploring the Relationship between Self-Regulated Vocabulary Learning and Web-Based Collaboration
Sarah Hsueh-Jui Liu, Yu-Ju Lan and Cloudia Ya-Yu Ho

404–419

A Study of Learner-Oriented Negative Emotion Compensation in E-learning
Jiwei Qin, Qinghua Zheng and HaiFei Li

420–431

Recognition-Based Physical Response to Facilitate EFL Learning
Wu-Yuin Hwang, Timothy K, Shih, Shih-Ching Yeh, Ke-Chien Chou, Zhao-Heng Ma and Worapot Sommool

432–445
